Because the risk factor is high in the foreign exchange market trading, only genuine "risk" funds should be used in such trading. If Trader does not have the extra capital the Trader can afford to lose, Trader should not trade in the foreign exchange market. No "safe" trading system has ever been devised, and no one can guarantee profits or freedom from loss.

**The undersigned agrees that he/she understands and certifies that they have the financial resources to enter this Agreement and that all trading objectives have been explained. The undersigned acknowledges having received, read and understood the foregoing Margin Requirement Change.**
